EXPERIENCE

Full-stack Mobile Developer Intern

BuildCodeTogether   📅 11/2024 - 04/2025   📍 Ibadan, Nigeria

Company Description

- Designed and built core features for a university transport app using React Native and ExpressJs, enabling visualization of shuttle routes and stop points.
- Developed inventory management system in React Native, Node.js and MongoDB, including category hierarchies, and user role-based access control.

Frontend Web Developer Intern

N-Flow Innovations   📅 04/2024 - 07/2024   📍 Lagos, Nigeria

Responsible for frontend design and development for company clients

- Developed the frontend of multiple client-facing web applications, improving user engagement and satisfaction by ensuring responsive, intuitive design.
- Collaborated with clients and stakeholders to gather and document requirements, helping bridge the gap between technical and business needs.

Frontend Web Developer Intern

Information Technology and Media Services

📅 07/2023 - 10/2023   📍 Ibadan, Nigeria

Participated in the design and front-end development of web-based software

- Assisted in the development and maintenance of the university's media services, ensuring seamless delivery of digital content across multiple platforms used by students and faculty.
- Developed and maintained the frontend of various university web applications, focusing on improving usability, accessibility, and engagement for students and staff.

EDUCATION

Bachelor's degree, Computer Science

University of Ibadan   📅 01/2020 - 12/2025
